Advisory Board Established

Tucson, Arizona, June 27, 2016 – Time in Cosmology (TiC) is pleased to announce the establishment of an Advisory Board. We recognize and thank individuals on the Advisory Board for graciously donating their time to help with TiC future endeavours. We are honored to introduce [Ret. Commander Robert “Hoot” Gibson](#), NASA Astronaut fighter pilot, and aeronautical engineer; and [Bruce Bayly](#), University of Arizona Mathematics [Associate Professor](#), and Co-founder and President of [The Physics Factory](#), as the TiC Advisory Board.

WHAT: Advisory Committee Established

WHO: [Ret. Commander Robert Hoot Gibson](#), NASA Astronaut fighter pilot, aeronautical engineer.

[Associate Professor Bruce Bayly](#), University of Arizona Mathematics, and Co-founder and President of [The Physics Factory](#).

WHEN: Monday, June 27, 2016, 8:00 AM

WHERE: PO Box 41692

ORGANIZATION: Time in Cosmology 501(c)3

The mission of TiC is to bring together researchers, post-doctoral, graduate, undergraduate students, and other interested parties in astronomy, physics, philosophy, mathematics, and cosmology in order to inspire STEAM in students, academia, and the local community.

TiC is a collaborative group involved in scientific research and education. The group was founded in 1996. TiC is organized around established principal scientists, joined for the purpose of fostering research, communicating that work, and providing educational opportunities for persons of all ages who may be entering the scientific profession or are simply interested in TiC's fields of scientific investigation.
