Scientific Association for the Study of Time in Physics and Cosmology

Celebrate the Launch of Three Local Space Programs: Space Exploration Month, the NASA OSIRIS-REx Asteroid Sample Return Mission, and our Pascua Yaqui Girls Space Camp Program!

August 16, 2016 - Did you know that Mayor Jonathan Rothchild declared September "Space Exploration Month" in Tucson? We are celebrating the declaration of Space Exploration Month! Wednesday, September 7, 2016, in association with the [University of Arizona](#), [R Bar](#), and [Maynards Market Place](#), Time in Cosmology will feature "Space Exploration Night" which includes the famous Physics Factory Bus, UA Senior Lecturer of Physics, Shawn Jackson, at the R Bar, a prize raffle, and Maynards delicious, "The Space Dinner." In addition, Stargazing with the UA Astronomy Club, and a viewing of Space Art from the International Association of Astronomical Artists (IAAA) throughout the evening will make this an event not to be missed!!

WHAT: Space Exploration Night and The Space Dinner

WHEN: September 7, 2016. Events Starting at 5:30 P.M. Dinner Starting at 7:45 P.M.

WHERE: The Rialto's R Bar [350 E. Congress No. 110](#), Maynards Market Address: 400 N Toole Ave

WHO: [Time in Cosmology](#), [UA OSIRIS-REx](#), [Maynards Market](#), [R Bar](#), [International Association of Astronomical Artists](#), [The Physics Factory](#), [Pascua Yaqui Computer Clubhouse](#)

COST: Event is FREE. Dinner is \$45 + Tax & Gratuity

Event Schedule

Space Art from The IAAA

5:30 Physics Factory Bus

6:30 Shawn Jackson at R Bar

7:45 Geoffrey Notkin at The Space Dinner & Silent Auction

9:00 Stargazing with UA Astronomy Club

Space Exploration Dinner Menu:

Bistro Salad

Scarlet butter lettuce, baby kale, bacon, soft-cooked egg, red onion, brioche crouton, herb vinaigrette

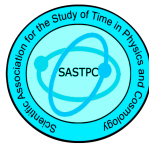

Entrée Selection

Beer-Brined Chicken -- Pueblo Vida Northwest IPA-brined chicken breast, house mustard and fig marmalade, braised red cabbage, shallots, extra virgin olive oil and thyme pommes puree

P.O. Box 41692 | Tucson | AZ | 85717

(520) 222-9921

timeincosmology.com

Scientific Association for the Study of Time in Physics and Cosmology

Saffron Risotto -- Braised leeks, sautéed greens, parmesan reggiano, shallot relish, beet chips

Prime Sirloin -- 6 oz. Niman Ranch prime sirloin, bearnaise sauce, red wine caramelized onions, pommes frites**, seasonal vegetable

Dinner served with Maynard's AZ Malbec

Call for your dinner reservations today! **(520) 545-0577**.

Proceeds benefit the Time in Cosmology's Space Camp Girls Scholarship Program.

Hurry! Seating is limited!

IAAA Silent Auction

The IAAA is donating 20% of proceeds from sales and 100% from the Silent Auction.

Artwork from the following artist will be for sale and auction:

Astronaut/ Artist Ron Garan

Astronaut/ Artist Nicole Stott

Michelle Rouch

Earl Billick

Theresa Hentz

Simon Kregar

100% of all proceeds go to funding Space Camp tuition for girls from the Pascua Yaqui Computer Clubhouse.

Time in Cosmology is honored to be collaborating with the Pascua Yaqui Computer Clubhouse in our mission to send middle school aged Pascua Yaqui girls to Space Camp! The first group of Pascua Yaqui girls will be attending Space Camp in June 2017. Selected Scholarship winners are receiving full tuition once a year for three years. In addition, we will be adding another group of girls the following year, and the next. The Pascua Yaqui Space Camp Girls Scholarship Program will run for a total of 5 years.

In gratitude and collaboration with:

[Maynards](#) is a historic venue with a takeaway counter, a gourmet shop & a bar, and "dark and handsome" eatery with seasonal American fare. Address: 400 N Toole Ave, Tucson, AZ 85701. Located in the historic Train Depot.

[R Bar](#) opened in July 2014 as an expansion to the historic non-profit Rialto Theatre. The R Bar has been described as, "the best alley bar in Tucson." Address: [350 E. Congress No. 110, Tucson AZ, 85701](#). Located in the alley between Rialto and World of Beer.

Scientific Association for the Study of Time in Physics and Cosmology

[OSIRIS-REx](#) is the first U.S. mission to return samples from an asteroid to Earth. The spacecraft is traveling to Bennu, a carbonaceous asteroid whose regolith may record the earliest history of our solar system. Bennu may contain the molecular precursors to the origin of life and the Earth's oceans. Bennu is also one of the most potentially hazardous asteroids, as it has a relatively high probability of impacting the Earth late in the 22nd century. OSIRIS-REx will determine Bennu's physical and chemical properties, which will be critical to know in the event of an impact mitigation mission. Finally, asteroids like Bennu contain natural resources such as water, organics, and precious metals. In the future, these asteroids may one day fuel the exploration of the solar system by robotic and manned spacecraft.

[The IAAA International Association of Astronomical Artists](#) was founded in 1982 by a small group of artists who journeyed through the fascinating but seldom trod territory where science and art overlap. Since 2013 IAAA Artists in the Tucson area have been very active in the local STEM community, promoting a human presence in space through outreach events at the Pima Air and Space Museum and the University of Arizona's Lunar and Planetary Laboratory.

[The Physics Factory](#) brings physics demonstrations to schools and events throughout Arizona and North America. Inspired by the successful Physics Phun Nights at the University of Arizona, the Physics Factory has grown to include outreach programs, student mentoring, resources for science teachers, and many other programs.

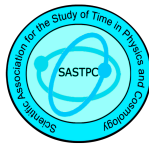

[Geoffrey Notkin](#) is a television host, professional meteorite hunter, science writer, and photographer. He was born in New York's East Village, grew up in London, England, and now makes his home in the Sonoran Desert in southern Arizona. He studied geology, photography, writing, and design in London, Boston and New York and is the owner of [Aerolite Meteorites](#) LLC of Tucson, a featured exhibitor at the annual Tucson gem and mineral shows. (Credit: IMDB)

[Pascua Yaqui Clubhouse](#) program provides a creative and safe environment where young people work with adult mentors to explore their own ideas, develop skills and build confidence in themselves through the use of technology. The Community Resource Lab provides internet access and Microsoft Office programs for the community to utilize. Classes, training, workshops, and daily computer assistance are also provided after school.
